Gola Gokarannath Kheri, Uttar Pradesh - 262802

CAREER OBJECTIVE

- Seeking an entry-level Software Developer / AI-ML Engineer position where I can apply my knowledge of Python, Machine Learning, Deep Learning and Full-Stack Development to build innovative and scalable solutions. Passionate about problem-solving, continuous learning and developing impactful applications using modern technologies.

SKILLS

- Programming Languages - Python, Java, C, C++, SQL
- Machine Learning - Regression, Classification, Feature Engineering, Model Evaluation
- Deep Learning - ANN, CNN, LSTM, TensorFlow, Keras
- Generative AI - LLMs, Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Agents
- NLP & Vector Search - Natural Language Processing (NLP), Sentence Transformers, Embeddings, Semantic Search, FAISS
- Data Analysis - NumPy, Pandas, Matplotlib
- Backend Development – Flask/Fast API
- Web Development - HTML, CSS, JavaScript, ReactJS, NodeJS
- Frameworks & Tools - Scikit-learn, Flask, Streamlit, Git, GitHub
- Database – MySQL

EDUCATION

Lal Bahadur Shastri Institute of Management and Development Studies (Affiliated with AKTU)

Master of Computer Applications (MCA)

Jul 2024 – Jul 2026

Invertis University, Bareilly

Bachelor of Computer Applications (BCA)

SVN Inter College, Gola Kheri

Intermediate (12th) and High School (10th)

PROJECTS

- AI Interview Coach - Developed an AI-powered Interview Preparation Platform using Python, Streamlit, Groq API, FAISS and Retrieval-Augmented Generation (RAG). Implemented resume-based interview question generation, voice-enabled interview simulation and automated answer evaluation. Generated performance reports with technical, communication and confidence-based scoring.
- AI Career Intelligence Platform - Built an AI-driven Career Intelligence System using Python, Streamlit, Groq API and Sentence Transformers. Implemented resume analysis, job role recommendation, ATS-style

evaluation and skill-gap analysis. Generated personalized career roadmaps, learning recommendations and interview preparation insights.

- Resume Analyzer and Job Recommendation System - Developed a Resume Analysis application using NLP, Sentence Transformers and FAISS for semantic search and resume understanding. Implemented job-role recommendation, resume-job matching and skill-gap identification. Automated extraction of skills, projects and experience from uploaded resumes.
- AI Medical Assistant (RAG) - Developed an AI-powered Medical Assistant using Retrieval-Augmented Generation (RAG), Sentence Transformers and Streamlit. Implemented semantic search, document retrieval and question-answering functionality for medical information access.
- Brain Tumor Detection System - Built a Deep Learning application using TensorFlow and CNN to classify MRI images for brain tumor detection. Performed image preprocessing, model training and prediction visualization.
- Face Mask Detection System - Developed a CNN-based Face Mask Detection application using TensorFlow for image classification and real-time prediction of mask compliance.
- Insurance Charges Prediction - Created a Machine Learning regression model using Python and Scikitlearn to estimate insurance charges. Performed data preprocessing, feature engineering and model evaluation. Developed an interactive Streamlit interface for predictions.
- Wine Quality Prediction - Designed and deployed a Machine Learning application using Flask API to predict wine quality based on physicochemical attributes. Integrated frontend, backend and predictive model into a complete web solution.
- Sales Forecasting and Data Visualization Dashboard - Developed an interactive dashboard using ReactJS for visualizing sales trends and forecasting future sales. Implemented dynamic charts, graphical reports and user-friendly interfaces to analyze business performance and support data-driven decision making.

EXPERIENCE • IndusInd Bank

Short-Term Exposure in Banking Operations (Approx. 5 Months)

- Assisted in banking operations and customer interaction. –
- Handled documentation and basic support tasks.

• ISON BPO (Dehradun)

Customer Support Executive (Short-Term Role, Approx. 5 Months)

- Managed customer queries and communication support. –
- Received appreciation certificates for performance.

LANGUAGES

- Hindi (Native Proficiency)
- English (Intermediate Proficiency)

DECLARATION

I hereby declare that the information furnished above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the details provided in this resume.
